The screenshot shows the USPTO Patent Search interface. At the top, there are buttons for 'Search', 'Browse', 'Queue', and 'Clear'. Below these are input fields for 'Qs' (containing 'USPAT'), 'Plurals' (unchecked), and 'Default operator' (set to 'OR'). A checkbox for 'Highlight all hit terms initially' is checked. The search query '704/250-255.ccls. and cache and (grammar and language adj model)' is entered in the main search box. The results list is empty, showing only the header 'No. of hits'.
